

# Rebecca G. Estes

Full-Stack Web Developer | Washington, DC

[estes.rebecca@gmail.com](mailto:estes.rebecca@gmail.com) | [rebeccaestes.com](http://rebeccaestes.com)

## WHO I AM

I'm a full-stack web developer based in Washington, DC, looking to learn new techniques and technologies as part of a fast-paced team. I like exploring front-end frameworks, bringing interfaces to life, and working with clean, flexible back-ends.

### SKILLS

**Proficient** in HTML, CSS/SASS, Javascript/jQuery, Git, Drupal, Twig, Bourbon, Underscore, XML.

**Familiar** with Ruby/Rails, SQL, PHP, React, Gulp, ES6, Agile, SVG, accessibility.

**Dabbled** in Node, Backbone, Angular, D3, Heroku, Leaflet, Linux.

**Learning** Python and Django.

### EDUCATION

10/15-01/16 **General Assembly** | DC  
Graduate of full-stack Web Development Immersive.

01/06-05/08 **Barnard College at Columbia University** | New York City  
B.A. cum laude, Political Science

08/04-12/05 **University of Virginia**  
Charlottesville, Va.

## EXPERIENCE

04/16-pres. **Elucid Solutions**

Front-End Developer

- Build and maintain Drupal 8 websites for federal government agencies, including the Advisory Council on Historic Preservation, [Bureau of Land Management](#), and General Services Administration
- Create and update interactive training materials for GSA employees' software system
- Act as primary front-end developer, working with HTML, SASS, Javascript/jQuery, Twig, and SVGs to build interfaces based on InVision design comps
- Collaborate with back-end developer to build and maintain custom and open-source Drupal modules
- Interview client stakeholders and compile information architecture outlines

02/16-03/16 **RP3 Agency**

Front-End Developer (Contract)

- Built front end of real estate website for Long & Foster
- Converted mockups into working, responsive components using HTML, SASS, Javascript, Bootstrap, and Gulp
- QA tested pages across browsers and devices and for accessibility
- Maintained project style guide

04/12-08/15 **NAFSA: Association of International Educators**

Web Systems Manager

- Created online event registrations, program evaluations, and member elections
- Tracked website analytics in Google Analytics and SiteCatalyst
- Coordinated with program staff to organize and migrate materials for website launch in fall 2012
- Edited and approved colleagues' website updates; planned web strategy for larger content launches
- Assisted with customers' technical issues; trained staff members on new programs and technologies
- Submitted bug reports and service requests to vendors

03/11-04/11 **The American Prospect**

Publishing Fellow

11/09-03/11 **The Pew Charitable Trusts Environment Group**

Web Intern/Contractor
